| SITE MANAGER

To manage and have overall responsibility for all on-site construction activities, reporting on a regular and routine basis to the Contracts Manager, ensuring all works are carried out safely, to programme, within budget and in accordance with all design standards, specifications and company procedures. Manage activities on site, ensuring that the highest standards of Health and Safety are maintained at all times.

What you'll do

- Learn key tasks and skills appertaining the roles
- Develop personal skills and attributes required to work in the construction sector
- Assist to ensure all works are carried out and monitored in accordance with the company safety policy and procedures, and in accordance with current legislation, regulations and environmental standards
- Assist the Site Manager in carrying out their responsibilities to the required standards and that appropriate resources, plant and material are available
- Assist in monitoring the project, ensuring it has the correct resources to be completed to the required quality standards and 'Right First Time' culture, within the agreed timescales.
- Understand the delivery programme and key targets and milestones, assist the Site manager in meeting these targets.

Have you got what it takes?

- Must be working towards a Construction related degree or suitable qualification or have an appropriate amount of relevant experience
- Developing into becoming commercially and contractually aware
- Ability to forward plan and foresee potential problems together with solutions
- Proficient in Microsoft Word, Excel & Outlook
- Promotes a professional image at all times
