

SEDDON CONSTRUCTION LTD. ENVIRONMENTAL POLICY

Scope

Construction, Design and Multi sector construction contractor, including all types of refurbishment and construction activities.

Vision

To be the contractor everyone wants to work with and for.

Seddon Construction Ltd strives to be the “go to” contractor for our customer’s construction needs: chosen not on price but as a trusted partner for the solutions we provide: our innovation, performance, quality & integrity.

Goals

- Building Quality, On Budget and On Time
- Focussing on Customer Relationships and Maintaining a Profit
- Protecting the Wellbeing of our Customers, Employees, Supply Chain and the Environment

Improve

To minimise the environmental impact of our operations at our offices and our construction sites, Seddon Construction have developed and implemented an independently certified environmental Management System complying with the requirements of ISO 14001. The Seddon Management System contains policies, procedures and the document templates for us to utilise in our processes from cradle to grave.

In order to achieve this, the company is committed to:-

- Continual improvement to enhance our environmental performance through the setting of targets and objectives
- Protecting the environment including prevention of pollution across our business. Other internal commitments by training our staff to understand our environmental impacts and how to prevent pollution from occurring
- Fulfilling our compliance obligations that are applicable to us within our scope
- Ensuring others who undertake work for our organisation, such as contractors, adhere to the management standards and controls laid down in the Seddon Management System
- Communicating the policy to all company personnel and making it freely available to customers, the general public and other interested parties upon request

Overall responsibility for compliance with the commitments as stated in this Environmental Policy is vested in the Managing Director.
